Simple and Generous

The CPOS 240 is silent and dust proof. With simple and generous design, It offers a seamless integration for a variety of peripheral modules such as MSR, Customer Display. Perfect for the retail and hospitality industries.

Performance that Boosts Productivity

- Choice of three processors: from a cost-efficient Celeron to a high-performance Core i5—offer scalable performance levels
- Up to 32 GB of high-speed memory offer sufficient headroom for future requirements

Tailored, Flexible Configurability

Configuration options allow the system to flexibly adapt to almost any requirement:

- Type and number of interfaces can be tailored to customer needs
- Additional I/O hubs expand the interface selection
- Adaptable peripherals save valuable counter space

Made for Retail, Built to Last

Cloud Advanced systems are designed and manufactured specifically for retail:

- Aluminum housing allows use in harsh and demanding environments
- Reinforced glass surface guarantees trouble-free touch usage
- Robust system design allows installations in environments with enhanced ambient temperature.

Simple and generous design

Sharp LED for long time using life

Monitor Tilt angle 15°~90°

Multi-interfaces, support all POS peripherals

cloud

- **Main Boar:** Industrial grade J1900 (optional for i3 and i5)
- **CPU:** Intel Celeron J1900 quad-core 2.0 GHz (optional for CPU i3 and i5)
- **RAM:** DDR3-2G/4G/8G
- **Hard Disk:** 32G SSD (optional for 64G, 128G)
- **OS:** Windows XP/7/8/10, Android 4.4.4, Linux
- **Resolution:** 1024*768
- **Display Screen:** 15 inch LED
- **Touch Screen:** Resistive touch screen
- **Color:** Black
- **Customer Display:** VFD 220
- **Interface:** COM*1, VGA*1, PS/2*1, LPT*1, RJ45*1, MIC*1, audio output*1,USB*6 (2 outside)
- **Optional:** Card reader
